

FAASTeam presents:

NW Mountain Virtual Aviation Safety Week - March 25 2021 - Day 3 - Session 3

We know that Loss of Control is still the number one item on the ten most wanted list by the General Aviation Joint Steering Committee. Let us learn from other's mistakes on what not to do while flying. We will dissect a few cases that we could find ourselves in to see what happened. We will look at recommendations on how to recognize a loss of control situation and ways to avoid/resolve them while maintaining control of the aircraft.

Directions: This Virtual Aviation Safety Event will be hosted using the Goto Webinar platform.
Goto Webinar registration link:
<https://register.gotowebinar.com/register/8917383861660461579>

Once registered, you will receive an email confirmation from the Goto Webinar system platform with joining the webinar information for each topic you have registered. Thank you for your participation.

To register for Wings Credit please click on the registration information link below.
